Mr. DiBlasi,

My name is Al Tabards, I am a musician from the New Jersey area, representing Wagg Records, a brand new independent record label started by a friend of mine. I am very much a lover of oldies and 50's music, especially in the style of Phil Spector (plus many others). My current project hopes to be a modern, yet rough and raw tribute to those styles. Listening to some previews of your work, specifically your cover of Elvis' "Falling In Love with You," I can really tell you also have a sense and appreciation for it. I highly commend you.

I am sending this email to ask if you would like to participate in recording a duet with me for my project, likely in the form of a single. As a result of worries from COVID, I do prefer for this to be done without in-person contact. As I am sure you are a very busy man, I completely understand if you are unwilling. However, I hope that we can support and help each other out in some way.

Thank you very much. By the way, I love your channel, as well as "The-Me-Line"!!!!!!!

- AL.

Hello AL,

Thank you for your interest. However I am going to pass on your offer to record a duet. Reading your email I can see you know about me and mine. If you can send some info on yourself and your friends new record label I would consider it. That said. Most of what I do is in house including my records label. At this point you offer me no reason to change that. However, let me offer you a chance to buy a piece of history.

Mr. DiBlasi,

I believe there is a misunderstanding. I never asked for you to join our record label, I only asked for a duet. I hope you can reconsider on the duet once again, but we would NOT like to have you on our label.

Also, don't you think it's a little outrageous to ask someone like me, coming to you as a fellow small and local artist, for \$65,000? I don't like "The-Me-Line" *that* much....

Anyway, I hope you can understand. All I ask is for your voice singing with me on a duet. I just know it will sound beautiful. When I get a chance, perhaps I'll send you some previews from the new upcoming album

Mr. DiBlasi

Good luck to you too! On your sick little album appropriating the "blues" into your perverted misogynistic fantasy about how women should be controlled by little old men like you.

It will truly be the day when we see people wearing "Fuck Me" shirts in the history books. I sold it to them at \$100 a piece. Swimming in profit! I bet the "Fuck Me" one is your favorite one to wear too.

You ain't shit!!!!!! Have fun torching houses besty.

Love you!

-AL.
